We Believe in Our Essiac So Much, We Guarantee It!

Your *first* concern when choosing essiac tea should be whether or not the formula is from a *credible* source. After all, what is the point in taking essiac tea if it is not the real stuff?

Our Formula was Developed by Rene Caisse, the 'Founder' of Essiac.

Rene Caisse is the Canadian nurse who brought essiac tea into popular use. Rene Caisse and Dr. Charles Brusch spent eight years together studying essiac tea at the Brusch Medical Research Center in Cambridge, Massachusetts.

Additional Herbs Were Found to Enhance the Original Essiac Formula.

Rene Caisse and Dr. Charles Brusch researched essiac tea from 1959 to 1967. They found that one of the essiac tea formulas consistently outperformed all others. This formula included the original four essiac herbs combined with an additional four herbs. This new and improved formula maximized the effectiveness of essiac when taken as a tea.

Why the 'Original' Four Herb Essiac is not the Best Choice.

When a company says they have 'Original Essiac,' that is really nothing to brag about. The original formula is an older one that was found to be less effective than the updated eight herb formula developed by Rene Caisse and Dr. Charles Brusch.

How the Paulhus Family Took Over for Rene Caisse and Dr. Brusch

Being from the same area, our family was fortunate enough to be introduced to Dr. Charles Brusch through a common friend. As Dr. Brusch grew older he appointed our family as the ones who help make sure essiac remained available to everyone. Dr. Charles Brusch passed the formula to our family so that we could distribute it to whomever may need it. He wished for us to keep pricing as low as possible so that everyone had access to it. In keeping with his mission, we provide essiac at as low of a cost as possible while still able to stay in business.

Essiac Available at Reduced Cost for Those with Financial Need

It is a tragic thing to have essiac not be made available to those in need due to financial concerns. In fact, we are so determined to get essiac to those who need it that we may be able to provide you with essiac free of charge to you if you have an extenuating financial need.

How Our Essiac Formula Works

This essiac formula has led to many thousands of satisfied customers over the years. Dr. Charles Brusch and Rene Caisse researched a variety of eight herb formulas and found them to be superior to four herb blends. Dr. Brusch has stated, "Clinically, on patients suffering from pathologically proven cancer, [essiac] reduces pain and causes a recession in the growth; patients have gained weight and shown an improvement in their general health...Remarkably beneficial results were obtained even on those cases at the 'end of the road' where it proved to prolong life and the quality of that life...The doctors do not say that Essiac is a cure, but they do say it is of benefit."

Our Industry-Exclusive Money-Back Guarantee

Please don't hesitate to give essiac a try, because you don't risk a *thing* when you try essiac tea from our company! No other company is so confident in their product they offer a money-back guarantee! *All* of our customers are covered by our famous 6 month 100% Money-Back Zero Risk Guarantee. This isn't used often—there is no way we could stay in business if it was. But we wish for you to feel comfortable and be able to try essiac risk free.

Here is the way our Essiac Tea Guarantee works:

Order essiac and give it your own personal "test run." Take it for a full six months. If you haven't experienced any health improvements, simply return the remaining portion (if any) and we'll issue you a complete refund of every penny.

All we ask is that you, on the honor system, take essiac at the suggested dosage level for six months. If you have not experienced any benefit, you may return any remaining portion to us and expect a full refund for the amount you paid for your essiac.

Please direct all refund inquiries to our phone: 1-978-504-9517 or our Toll-Free number: 1-866-ESSIAC1. (1-866-377-4221). Make sure you have taken essiac for the full six months before requesting your refund. Essiac can take up to six months for a change in health to be noted.

Our low prices are due to many factors, but are NOT due to poor quality!

Here is how we have been able to keep quality high even though our prices are the lowest anywhere:

1. We receive huge volume discounts from our herb suppliers due to the large amount of essiac we sell worldwide.
2. We ship direct to you, eliminating 'middleman' expenses.
3. We have minimal overhead costs.
4. Our essiac formula works so well that our best advertising is our healthy customers, who are spreading the word about our essiac.

The Paulhus family continues Dr. Brusch's mission of providing the highest quality essiac tea at prices that don't take advantage of people in their time of need. Our essiac tea costs just \$8.74 per gallon when you purchase 4 lb. of herbs at a time, and a gallon lasts between two to four weeks, depending on the dosage level you choose. If you know anything about essiac, you know that this price is an absolute steal! In fact, essiac is commonly sold in health food stores for up to *ten times* this price. We are *confident* that we are your best option for essiac tea.

If you have any questions or concerns at any time, simply call us 7 days a week at 1-978-504-9517 or Toll-Free at 1-866-ESSIAC1 (1-866-377-4221). You will be able to talk directly with someone who knows all about essiac and can help you.

Sincerely,

Gina and Bryan Paulhus

Gina Paulhus
Bryan Paulhus

P.S. If there's *anything* else we can help you with, including special order options not found on this site, please contact us with your special request. We'll do our absolute best to accommodate you!

Our Herb Quality is Top-Notch

At discount-essiac-tea.com, we have maintained the original herb supplier that was recommended by Dr. Charles Brusch. All of our herbs are organically grown in the U.S.A.

The herbs we use in our essiac formula are:

1. Organic
2. Chemical-free
3. Pesticide-free
4. Non-irradiated
5. Fully mixed and blended per the exact ratio specified by Rene Caisse and Dr. Charles Brusch
6. 100% Fresh--average inventory turnover once every three weeks

We obtain the herbs we need for the essiac formula (blessed thistle, burdock root, kelp, slippery elm bark, red clover, Turkish rhubarb root, and watercress) from Starwest Botanicals, Inc. in California. Our sheep sorrel includes the roots and is sourced from a private grower in Arkansas.

Freshness of Our Herbs

The moisture content of our herbs are: 12-15% moisture content for the blessed thistle, sheep sorrel, and kelp, and less than 10% for the burdock root, red clover, slippery elm bark, watercress and turkish rhubarb root.

Our herbs are incredibly fresh because we sell thousands of pounds of essiac every month. We turn over our entire inventory of herbs every 2-3 weeks. Sometimes when we order our herbs from the suppliers they cannot provide us with them because they haven't received their newest shipment yet. This means that our suppliers' herbs are fresh, too. They can hardly keep up with all the essiac we are selling!

Many of our customers have commented on how fresh our herbs look, smell, and taste. If you purchase essiac from an outlet that sells more than one herbal formula, you're much more likely to receive stale herbs. We carry essiac *and only essiac* at Discount-Essiac-Tea.com. There is never stale inventory.

*If you ever have a concern about the quality of our herbs or our packaging, please let us know! We will make it better.
Happy customers are always our number-one priority!*

The Essiac Tea Ingredients

All of our essiac herbs are organic, non-irradiated, pesticide-free, and chemical-free.

Blessed thistle is used for digestive problems such as gas, constipation and upset stomach. This herb is also used to treat liver and gallbladder diseases.

Burdock root is a mild diuretic. It increases the production of both urine and sweat, potentially making it useful in treating swelling and fever. Burdock root might play a role in preventing liver damage caused by alcohol, chemicals or medications. The exact reason for this protective effect is not known, but it is thought to involve opposition of a chemical process called oxidation, which is a reaction that occurs in the body during normal metabolism. One result of oxidation is the release of free radicals, which are chemicals that may suppress immune function and have been linked with cancer. Antioxidants such as burdock may protect body cells from damage caused by oxidation.

Kelp is a sea vegetable that is a concentrated source of minerals, including iodine, potassium, magnesium, calcium, and iron. Kelp as a source of iodine assists in making thyroid hormones, which are necessary for maintaining normal metabolism in all cells of the body. This increases energy levels, boosts the immune system and makes it easier to maintain a healthy body weight.

Red clover is a source of many valuable nutrients, including calcium, chromium, magnesium, niacin, phosphorus, potassium, thiamine and vitamin C. Red clover is also a rich source of isoflavones, which are water-soluble chemicals that act like estrogens in the body. The isoflavones isolated from red clover have been studied for their effectiveness in treating some forms of cancer. It is thought that the isoflavones prevent the proliferation of cancer cells and that they may even destroy cancer cells.

...The Essiac Tea Ingredients Continued

Sheep sorrel (we include the root!) contains an abundance of oxalic acid, sodium, potassium, iron, manganese, phosphorous, beta carotene, and vitamin C. Sheep sorrel is a mild diuretic, mild antiseptic and a mild laxative. These properties make sheep sorrel useful for ridding the body of toxins.

Slippery elm bark has been used as a poultice for cuts and bruises, and also for treating aching joints due to gout, arthritis or other causes. This herb also helps to alleviate sore throats. Slippery elm bark is an active ingredient in throat lozenges. Since sore throat and cough are often linked, slippery elm bark has also been used in cough remedies. It also can alleviate both constipation and diarrhea by regulating the digestive tract.

Turkish Rhubarb Root. This detoxifying herb is world-famous for its healing properties. Rhubarb root purges the body of bile, parasites and stagnated food by stimulating the gall duct to expel toxic waste matter. It has been shown to alleviate chronic liver problems by cleansing the liver. Rhubarb root improves digestion and increases the appetite for healthful foods. It has also been shown to help heal ulcers, alleviate disorders of the spleen and colon, relieve constipation and help heal hemorrhoids and bleeding in the upper digestive tract.

Watercress. Abundant in vitamin C, watercress is used as a general tonic, and its bitter taste is thought to stimulate the appetite and improve digestion. It can be used to alleviate nervous conditions, constipation, and liver disorders. Watercress is a popular cough and bronchitis remedy. It contains a remarkable substance called rhein, which appears to inhibit the growth of pathogenic bacteria in the intestines. It is believed that rhein is also effective against *Candida albicans* (yeast), fever, inflammation and pain.

Benefits You May Receive From Essiac Tea

It appears that essiac tea's primary actions are to remove heavy metals, detoxify the body, restore energy levels, and rebuild the immune system. All of these effects help restore the body to a level to where it is able to better defeat illness using its own resources. In other words, essiac rebuilds the immune system and improves the body's strength and capacity to fight off disease so that the body can rid itself of illness and disease.

Here are some of the reported effects of essiac tea in the body. Essiac tea...

1. Prevents the buildup of harmful fatty deposits in artery walls, the heart, the kidneys and the liver.
2. Regulates cholesterol levels by converting sugars and fats into energy.
3. Destroys parasites in the digestive system and also throughout the body.
4. Helps counteract the harmful effects of aluminum, lead and mercury poisoning that can cause illness and disease.
5. Strengthens and improves the functioning of muscles, organs and tissues throughout the body.
6. Makes bones, joints, ligaments, lungs, and membranes stronger and more flexible, and therefore less vulnerable to stress or stress injuries.
7. Nourishes and stimulates the brain and nervous system.
8. Promotes the absorption of fluids in the body tissues.
9. Removes toxic accumulations that accumulate in body fat, lymph tissues, bone marrow, the bladder and the alimentary canals.
10. Neutralizes and eliminates acids in the bowel.
11. Absorbs and eliminates toxins in the bowel.
12. Clears the respiratory channels by dissolving and expelling mucus.
13. Helps relieve the liver of its burden of detoxification by converting fatty toxins into water-soluble substances that can then be easily eliminated through the kidneys.
13. Assists the liver in producing lecithin. Lecithin forms part of the myelin sheath, and is a white fatty material that encloses end nerve fibers. Lecithin is very important for nerve health.
14. Reduces and may even eliminate heavy metal deposits in tissues (especially those surrounding the joints) to reduce inflammation and stiffness.
15. Improves the functions of the pancreas and spleen by increasing the effectiveness of insulin in the body.
16. Purifies the blood.
17. Increases red blood cell production and helps prevent the red blood cells from rupturing.
18. Increases the body's ability to utilize oxygen by increasing the oxygen level in the cells.

19. Maintains the ideal balance between potassium and sodium within the body, which regulates fluid balance inside and outside each cell. This keeps all body cells nourished with nutrients and optimally cleansed.
20. Converts calcium and potassium oxalates into a harmless form by making them solvent in the urine. Regulates the amount of oxalic acid delivered to the kidneys, thus reducing the risk of stone formation in the gall bladder, kidneys, and urinary tract.
21. Protects against toxins entering the brain.
22. Protects the body against the harmful effects of radiation and X-rays.
23. Relieves pain.
24. Speeds wound healing by an increased rate of cell regeneration in the damaged area.
25. Increases the production of antibodies such as lymphocytes and T-cells in the thymus gland, which is the defender of our immune system.
26. Inhibits benign growths and tumors.
27. Protects the cells against the harmful effects of free radicals.
28. Increases the appetite for healthful foods.
29. Decreases sugar cravings due to improved blood sugar control.
30. Increases energy levels and increases one's sense of well being.

Here are Some Health Conditions that Benefit from an Improved Immune System and Body Detox

The following list of illnesses and diseases may benefit from a reduction of toxins in the body and an improved immune system. It has been proven that the herbs in essiac tea reduce levels of toxins and improve the immune system.

1. Cancer (both internal and external to the body)
2. Tumor growth (benign or malignant)
3. High Blood Pressure and High Cholesterol
4. Diabetes
5. Arthritis
6. Chronic pain, including that associated with Fibromyalgia
7. Ulcers
8. Liver problems
9. Colon trouble, including Irritable Bowel Syndrome (IBS)
10. Sinus trouble
11. Gout
12. Pneumonia and Chest colds
13. Kidney and Bladder Problems
14. Diarrhea and Constipation
15. Fluid retention
16. Obesity
17. Asthma
18. Allergies
19. Hepatitis C

A Few Essiac Tea Testimonials

"I was diagnosed on January 16, 2002 with terminal peritoneal cancer, stage 3C. An oncologist gave me less than two years to live. I had a total of 58 cycles of chemotherapy, and my cancer only went into remission once, but it came back. Finally, my oncologist said, 'No more chemo.' He gave me less than six months to live.

My cancer levels CA-125 were over 1290. I was retaining fluid and needed to have the excess fluid removed every month. The procedure was very painful I was desperate and found bulk-essiac-tea.com when I was searching 'Google' one day. Now I have been on the essiac for two months. When I started the essiac is when the oncologist gave me just six months to live.

My cancer levels went from 1290 to 700 within two months of drinking the tea. My CT-scan is clean and clear except for one lymph node, which has a cancerous tumor. However, this tumor has decreased from 10mm to 6mm. All in two months! It's a miracle."

--Jeanne Cook, Burnet, TX

"Seven years ago I had surgery to remove a cancerous rectal tumor that was growing at an alarming rate. I was advised to undergo chemotherapy and radiation. I took chemo and radiation for four months but I felt so sick all the time that I couldn't bear to continue. I felt my best course of action was to follow an organic diet and investigate alternative treatments. I stumbled upon essiac tea and began to take it regularly. I had a colonoscopy a little over six months later, and there was no more cancer!

I continue to have an examination every year and there is no cancer at all! I don't know if essiac tea is a miracle or what, but it seemed to have done the trick for me! I continue to take the maintenance dose and it gives me incredible piece of mind that I am purging my body of the toxins that may lead to more cancer. Thank you for providing this product. I sincerely feel that I owe my life to it."

--Mary T., Mass.

"My best friend was diagnosed with chronic myeloid leukemia (CML) in 2003. She was sick with infections and fevers almost all of the time. She also developed anemia (her red blood cells were very low). Upon her practitioner's recommendation she began to take essiac tea along with chemotherapy.

After four months on essiac tea, to our surprise her body seemed to have rid itself of leukemia cells. The hematologist found her completely normal when he did the bone marrow aspiration! We went to a pathologist as well to confirm the diagnosis, and he agreed that the cancer was gone.

Also, my father has been using the essiac tea for his diabetes. He had been on insulin for five years, and now his doctor confirmed that he no longer requires insulin."

--Elizabeth A., New York

"Essiac tea helped my dad last year with the cancer on his spine. After my dad came home from the hospital, the week before Christmas, he was on oxy-contin, and was in a tremendous amount of pain (they radiated his 'whole' spine). Basically, they sent him home to die. I brought him essiac and he started taking it, just to appease my sister and me. Two days after taking the essiac tea, his pain went away, and his CT scans were good--the doctors were amazed!

However my dad thinks prescription drugs are the way to go; he doesn't believe in 'voodoo' stuff. Of course, he didn't attribute getting well to the tea. He stopped the essiac tea in the spring. The cancer did spread again in the summer and now he is in a cancer 'vaccine' testing. He has some essiac at his house if he so chooses. I have seen

this works and we like the idea of purging cancer causers from our bodies. It is hard to find real essiac tea at an affordable price, which is why we are so glad we found you."

--Karen, CT

"Last year I was diagnosed with hepatitis C. After researching and weighing my options, I decided to take no treatment at this time for various reasons. I was suffering from chronic pain in my right side along my right ribs for several months. I started taking the essiac tea, 3 oz. 3 times a day and almost immediately had total relief of the pain!

Upon beginning the essiac regimen, I eliminated quite a bit of fluid and had minor cold symptoms, but nothing too uncomfortable and the pain has not returned for several weeks so far. Another thing I have noticed is that I am not overeating as I had previously felt compelled to do. The extra food didn't do me any good and now I'm actually eating less and feel satisfied. I feel much better since beginning the essiac and will continue to take it at the aggressive dose for six months." **--James M., Florida**

"I became very sick with cancer last year. I was told I would be dead by December. I couldn't stay awake for more than a few hours at a time, and I couldn't even speak clearly. My tongue had swollen from the chemo. I heard about essiac tea and tried it as a last ditch effort to save my life. I couldn't believe how quickly I noticed an increase in energy! Then my hair started growing back--on my head and my eyelashes and such. A few months later, all my tumors were gone! My doctor said, "Whatever you're doing, keep it up, this is a miracle!

I do not think I would be alive today if not for the essiac tea. Once my tumors were gone and I felt better, I ran out of essiac and didn't buy more. I didn't think I needed it anymore. Well, I was wrong! My hair started falling out and I had no energy left. My platelet count went up again. This started happening a little over a month ago, a few weeks after I stopped the essiac tea I need to get more essiac in me. I feel horrible without it and I'm worried that my tumors will come back, if they haven't already.

My doctor is worried for me too because I am obviously slipping. He says he can't recommend essiac (which makes me so angry!) but we both know that it's the only thing that has changed in my regimen. I recommend that everyone with cancer take essiac. Essiac tea amazing and I feel it saved my life." **--Heather Peterson, Trenton, NJ**

"I have been practicing alternative medicine since 1980. I have always known about essiac and recommended it to many of my patients over the years, but never saw the 'need' to take it myself. After all, I didn't have cancer! Thank God I discovered your website. I didn't realize that there were as many different formulas out there or that essiac could be used for so many different things.

I was fighting bronchitis and gave essiac a try. Two weeks later I am well! Also, I can truthfully say that I have more energy and feel better, as well as sleep better on essiac. You must realize that these statements are coming from a 60 year-old alternative health practitioner. Until I tried the prescription cough meds to help me sleep last month, I hadn't taken a prescription in over 25 years. I plan on using essiac for the rest of my life and I am going to recommend that all of my patients use it to detox before starting other treatments." **--Dr. Micheal Cole, Murrells Inlet, SC**

For more essiac tea testimonials including those for specific conditions, please call 978-504-9517. We will send you information on others who had similar health problems before using essiac.

Essiac Product Listing

Our most popular order size is the 3 lb. 4 oz. order of essiac, and we recommend that size if you've never tried essiac before. To keep shipping costs down, order at least 3 lb. 4 oz. at once.

Essiac Orders designed for Aggressive Dose

(Each 4 oz. packet of herbs brews one gallon of tea at a time to be used up every 2 weeks. Herbs keep for at least 1 year.)

These order sizes are listed from most popular to least popular.

Weight	Lasts one person for*	packaging	Price	Priority Ship**
3 lb. 4 oz. (save \$22.18)	6 months	(13) 4-oz. pkts.	\$ 149.97	\$ 14.95
6 lb. 8 oz. (save \$64.34)	1 year	(26) 4-oz. pkts.	\$ 189.76	\$ 14.95
4 lb. (save \$39.91)	8 months	(4) 1 lb. bags	\$ 139.97	\$ 14.95
1 lb.	2 months	(4) 4 oz. pkts.	\$ 52.97	\$ 7.95
1 lb.	2 months	(1) 1 lb. bag	\$ 44.97	\$ 7.95
10 lb. 0 oz. (save \$129.73)	20 months	(10) 1-lb. bags	\$ 319.97	\$ 24.95
10 lb. 0 oz. (save \$149.73)	20 months	1 bulk bag	\$ 299.97	\$ 24.95

*assuming the typical aggressive dose of 9 oz. of tea per day

**Domestic rates. For international rates please e-mail gina@discount-essiac-tea.com

Essiac Orders designed for Maintenance Dose

(Each 1 oz. packet brews 1 quart of tea at a time. The maintenance dose is similar to the aggressive dose for children and pets. See our website for children and pet dosages.)

How to Store your Essiac

Store packets of herbs in a cool, dark place. You may store the herbs in the original packaging or packaging of your choice. Unopened packets of herbs stay fresh for up to one year, or longer in some cases. Do not store herbs in the refrigerator unless you have no access to a cool, dark place such as a basement.

Your brewed essiac tea must be refrigerated, since it contains no additives or preservatives. Do not attempt to store brewed tea for more than two weeks, because the tea may spoil. A fresh batch should be prepared every 2 weeks. Store your tea in spring water gallon containers or glass bottles. Amber bottles are not necessary (there is no light inside your refrigerator).

Important—Dosing Instructions!

All essiac doses must be taken on an empty stomach. This means—you cannot eat 2 hours before taking essiac and you cannot eat until one hour has passed after taking essiac. Fruit/vegetable juice, water, and black coffee are allowed.

Essiac Tea Brewing Instructions

1. Boil the necessary amount of spring water in a large pot.

The amounts for each size brew are*:

To Make	Use
One gallon of tea	136 oz. water (This is best for aggressive treatment dose)
One quart of tea	36 oz. (This is best for maintenance dose)
One pint of tea	20 oz. (This is best for children or small animals)

* the additional water is there to account for evaporation during the brewing process

2. Add the correct amount of essiac herbs.

The amounts for each size brew are:

To Make	Use
One gallon tea	4 oz. herbs (If you don't have 4 oz. packets, please weigh on a kitchen scale: 4 oz. dry herbs = 113 grams--but an <u>estimate</u> is 1 ¼ cup using dry measurement cups)
One quart	1 oz. herbs (If you don't have 1 oz. packets, please weigh 28.25 grams: estimation is one rounded ¼ cup using dry measurement cups)

3. Simmer for 10 minutes, stirring occasionally. Slant a cover on the pan to reduce evaporation.
4. Leave tea in pot, turn heat off, and let the mixture sit at room temperature for at least twelve hours, but no longer than 24 hours. You do not have to boil the tea twice.
5. The following day, funnel tea into a spring water gallon container or glass bottle and refrigerate. Do **not** strain the tea. Shake your container before pouring doses. The herb particles are very fine and should disperse throughout the liquid upon shaking the container. Drink the essiac quickly or the herb particles will settle again. The herbs themselves are believed to increase the efficacy level of the tea.

Essiac Tea For Pets

Essiac may be given to pets for similar reasons that humans take essiac.

For more information please visit this page:

<http://www.discount-essiac-tea.com/essiac-for-pets.html>

Essiac Tea Dosage

There are two main factors that affect essiac tea dosage:

- 1. Seriousness of condition.** We advise those who wish to improve health take the aggressive dose, or the aggressive PLUS dose.
- 2. Tolerance for the tea initially.** Sometimes there is a nausea or diarrhea response when you are just starting out. This is a good sign your body is undergoing a needed detox. You may need to build up to the full dose.

To improve taste, some mix essiac with fruit or vegetable juice, honey, or a sweetener called stevia. You will get used to the taste as you use essiac regularly.

Take essiac on an empty stomach—that means no food 2 hours before and 1 hour after your dose! Fruit/veg juice, water, and black coffee or tea are all ok.

AGGRESSIVE TREATMENT Dose: Recommended dosage is 9 oz. of tea per day, taken in three separate 3 oz. doses on an empty stomach.

--You should take this dose if you have or suspect you have a health problem.

--For best results, *stay on the aggressive treatment dosage program for at least 6 months.* After that time period, you may choose to switch to a maintenance dosage of 3 oz. twice per day if your test results have returned to normal. If the original condition persists, continue on the aggressive treatment dosage until your condition improves and you're satisfied with the results.*

***AGGRESSIVE PLUS Dose:** Up to 6 oz. three times per day for anyone who wants to be as aggressive as possible.

Essiac and Chemo/Radiation: Essiac can be taken along with traditional cancer treatments without interfering with those treatments. If you are undergoing chemotherapy and/or radiation, be aware that chemo and radiation can lessen the effects of essiac tea. If you plan to continue your chemo and/or radiation while using essiac, you might consider taking up to 6 oz. of essiac tea three times per day.

MAINTENANCE Dose: Recommended dosage is 3 oz. of tea twice per day. It's best to take one dose in the morning and one in the evening. Take on an empty stomach.

--Administer the maintenance dosage for at least 6 months *after your test results have returned to normal.*

--Some also take the maintenance dosage as a daily preventive supplement. This is healthy and safe in the long-term.

--The amount of time you should stay on a maintenance essiac program is an individual decision. If you have questions, please contact us. Essiac can be taken indefinitely much like a multivitamin. You may decide whether to

continue to supplement daily, or to stop using essiac once the condition you are wishing to improve is under control.

DETOXIFICATION Dose: A detox regimen is typically something that is done for a fixed period of time. Many people choose 3- or 6-month time periods for detoxes. However, some do shorter detoxes. The dosage for a 2-week or 4-week detoxification is 9-18 oz. of essiac tea per day.

The length of time between detoxification periods depends on two key issues:

1. Individual level of exposure to any toxin, including chemicals, pollution, diet, etc. including past and present exposure.
2. Ability of the individual to purge toxins and current state of health.

About us

We were introduced to essiac in 1986. Gina Paulhus, Bryan's wife and avid essiac user, created discount-essiac-tea.com so that everyone could enjoy quality essiac tea that is the same as you would find at any reputable health food store, but for a fraction of the cost. Bryan introduced Gina to essiac tea as a general health supplement. She experienced greatly improved health during that time, including the great reduction of her lupus symptoms and an improvement in her digestion disorder that had previously caused her to have two emergency intestinal surgeries. Gina was so impressed that built a website about essiac tea and decided she would like to help Bryan sell this herbal tea at a steep discount so that this popular herbal treatment could be more affordable to everyone.

Disclaimer: Essiac is not FDA tested and has not been FDA approved as a treatment or cure for any health problem, including cancer. We do not represent it as such on this site. You must determine whether essiac is a treatment method you should pursue. We have provided accounts and descriptions that represent the opinions of a variety of experts in the alternative treatment world as well as actual users of essiac. We believe that our formula is the most effective essiac formula being sold in the world. However, we do not endorse anything on this site as medical fact.
